```csharp
private void Go(int cond)
{
    string tableName;
    if (cond > 0)
    {
        tableName = "1";
    }
    else
    {
        tableName = " 2";
    }
    Program.ExecuteImmediate("select x from y " + "where a ++ b > 2");
    Program.ExecuteImmediate("select x from name" + tableName);
}
```
